

Rogue Shield

a Rogue Wave company

COVID-19 SET SAFETY METHODOLOGY

OVERVIEW

Rogue Shield is a new service offered by **Rogue Wave** to protect the crew and companies in Los Angeles. We understand that one outbreak on one set could cause a chain reaction of our industry being “shut down.” This is something many of our colleagues, employees, and vendors cannot financially tolerate.

Built by producers, our goal is to provide a one-stop, cost-effective, solution for production companies to focus on what they do best - booking and producing creative. We'll make it safe and easy for that to continue.

All of our COVID-19 Compliance Officers are certified through John Hopkins University Coronavirus Resource Center.

We look forward to working with you to serve our entertainment community and get people back to work safely!

BIDDING

- Every job is different, so we work with companies to bid the appropriate amount of protection for each production.

PREP

- Manage Crew Health Questionnaires
- Arrange Testing for Crew Members
 - Rogue Shield has partnered with a private laboratory for VIP, fast turnaround testing.
 - Health professionals travel to a central location of production's choosing to safely gather samples for testing. Site is set up and monitored by a Rogue Shield COVID-19 compliance officer.

ON SET

- Set Up & Manage Crew Check In Station
- Contactless Temperature Checks - Crew Arrival & Lunch
 - Colored Wristbands Distributed Twice Daily per Zone of Crew Member
- PPE Distribution: Masks, Goggles, Face Shields, etc. as Needed
- Hand Washing Stations
- Hand Sanitizing Stations
- Disinfecting High Traffic Areas
 - Electrostatic Disinfecting Sprayers are the most reliable tools used in killing viruses on surfaces.
- Ensure Social Distancing Rules & Best Practices are Adhered to On Set (Politely of course!)
- Posting of Required CDC Recommendation Signage on Set
